ANNEX 1: LGEA/LGA Data Validation Checklist	10

Introduction

This handbook provides a practical, state-led guide for completing Annual School Census (ASC) data entry on the Digital NEMIS platform. It is designed to support State and LGEA teams to coordinate schools effectively, ensure data quality, and achieve timely submission for the approved census year.

The guide covers: (i) what schools must enter, (ii) how LGEAs/LGAs should review and validate submissions, and (iii) how State EMIS teams should monitor progress and provide structured support.

Core principle: Data must be complete, accurate, and submitted within the agreed timeline. Incomplete or incorrect entries reduce the usefulness of EMIS for planning, funding, and decision-making.

Platform address: The Digital NEMIS platform is accessed online at emis.education.gov.ng. All School Designated EMIS Officers and LGEA/LGA officers must use this official website to log in with their assigned username and password to complete, review, validate, and submit ASC data for the approved reporting year.

Purpose

- Digitize the ASC and routine attendance reporting (where enabled)
- Monitor priority education indicators for planning and equity (e.g., out-of-school children, girl-child retention).
- Enable data-driven planning at LGEA/LGA, State, and Federal levels.

Roles and Governance (Data Flow)

User Role	Designation	Key Responsibilities	Typical Access
Data Entry User	School Head Teacher / Principal/ School Designated EMIS Officer / SBMC Secretary	Enter school demography, enrolment, attendance (if enabled), and school infrastructure data; run validation; complete and submit.	Data entry (school level)
LGEA Reviewer	LGEA/LGA EMIS Officers	Verify submissions; follow up with non-reporting schools; return forms for correction; maintain issue log.	View & validate (LGEA/LGA level)
State Administrator	SUBEB / SMoE EMIS Director / State EMIS Team	Monitor LGA progress; approve clean submissions (as configured); run state-wide quality checks; use analytics for planning.	Approval & analytics (state level)
National Monitor	FME / UBEC officials	National aggregation; dashboard monitoring; policy formulation and intervention tracking.	National dashboard access

STATE AND LGEA IMPLEMENTATION ROLES (SUMMARY)

State EMIS Team

- Provide overall coordination and implementation guidance to LGEA/LGA
- Monitor daily progress and follow up on low-performing LGEAs
- Provide technical support and escalate system issues where required
- Lead final validation and sign-off at state level

LGEA / LGA EMIS Officers

- Support schools to log in and complete data entry correctly
- Review, validate, approve, or return school submissions for correction
- Maintain an issue log and report daily progress to the State EMIS Team

School Designated EMIS Officer

- Enter school census data accurately for the approved year
- Run validation and correct errors before submitting to LGEA/LGA
- Support data utilization at school level

1. Role of the School Focal Person

As the **School Designated EMIS Officer**, you are responsible for:

- Logging into the EMIS platform using your assigned credentials
- Entering school census data correctly for the approved year
- Completing all sections (A–J) of the census form
- Running validation and correcting errors
- Submitting the form for LGEA/LGA review and approval
- Responding to any corrections returned by the LGEA/LGA

2. What You Need Before You Start (Minimum Requirements)

2.1 Login Requirements

- Username and password provided to you
- Correct school name and school code

NOTE: The username and password is case sensitive, so clearly place where the capital letters, lowercase letters, and special characters should be when typing your username and password.

2.2 School Records to Keep With You

- School register (enrolment by class, age and male/female)
- Teachers/non-teaching staff list (male/female, qualified/unqualified if required)
- School facilities information (water, toilets, classrooms, electricity)
- School inventory information (textbooks, desks, instructional materials)

- School profile details (year established, school type, location)

2.3 Equipment

- Laptop/desktop or tablet or Android Smartphone (preferred)
- Stable internet (or plan for intermittent access)
- Power supply/charging arrangement

3. Step-by-Step: Login and Navigate to Data Entry

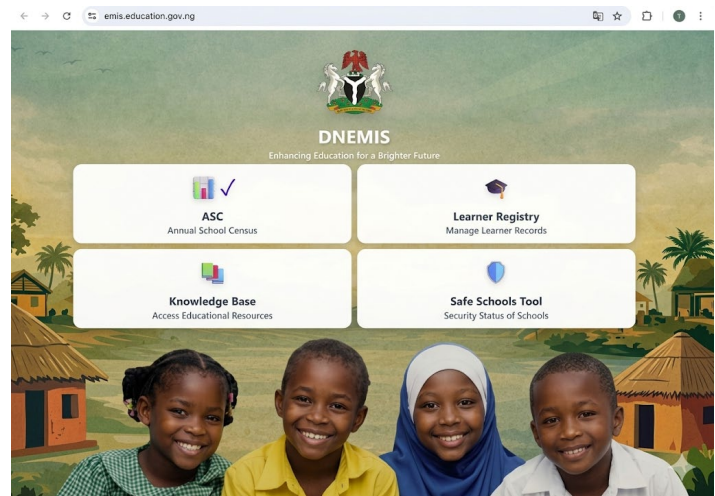

A. Web

Step 1: Open the DNEMIS website

- Open Google Chrome browser
- Visit: emis.education.gov.ng

Step 2: Select either ASC or Learner Registry

- Enter your username and password and login

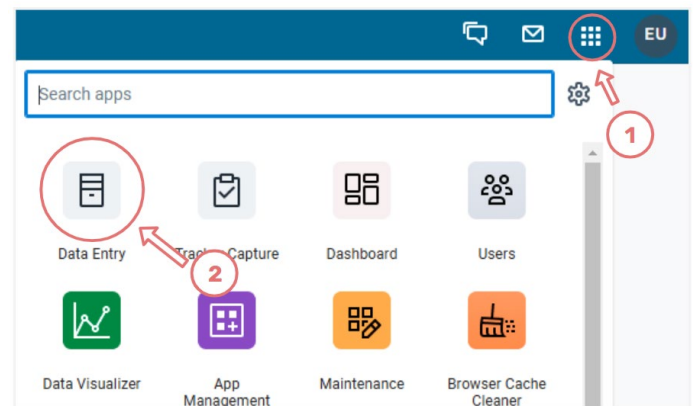

Step 3: Open the Apps Menu

- Click the Apps grid icon (top-right corner)

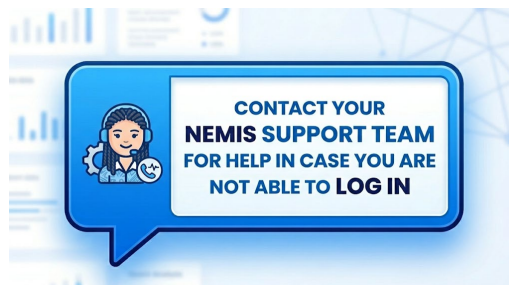

Step 4: Select “Data Entry”

- In the search bar, type Data Entry
- Click Data Entry to open the form page

NOTE: In case the login is not successful, you will be notified immediately that the credentials are not correct.

Step 5: Once logged in refer to Section 4 of this handbook on how to do data entry

B. Mobile

Step 1: Launch the Android Capture app to either access the ASC or Learner Registry

Step 2:

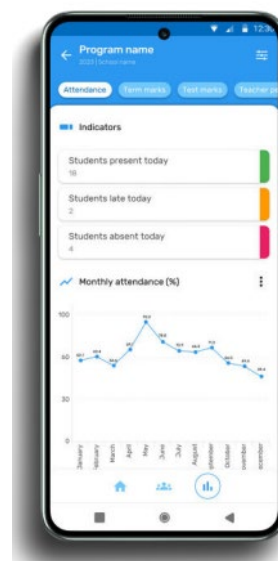

There are two options on how to access the different forms.

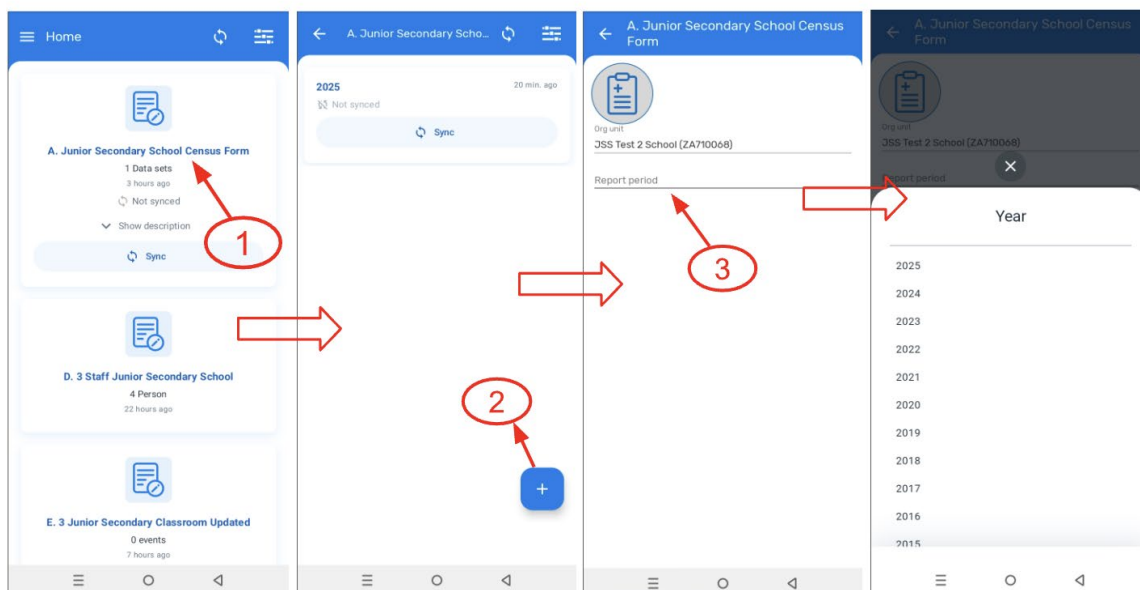

Type the URL <https://asc.education.gov.ng/dhis> for the ASC forms, or type <https://nlin.education.gov.ng/dhis> for the Learner Registry.

Step 3: Enter your username and password and log in

Step 4: Enter Data

- From the list of available forms, select the form in which data is to be entered by tapping on it e.g Junior Secondary School Census Form, staff Junior Secondary School Form or Junior Secondary School Classroom Form
- Tap on the plus sign in the lower right corner of the phone screen
- Choose the reporting period

4. Step-by-Step: Select the Correct Year (Period)

Once inside the Data Entry page, confirm the following:

4.1 Organization Unit

- Ensure your school appears correctly (school name and code).
- If the school is incorrect, stop and report to the LGEA EMIS Officer.

4.2 Data Set

- Pre-Select (Automatically): A. Pre-primary and Primary School Census Form

4.3 Period (Year)

- Click [Select period] and choose the correct year (e.g., 2025).
- Only enter data for the approved census year.

5. Understanding the Form Sections (A–J)

On the left panel, the census form is divided into sections:

- Section A: School Identification
- Section B: School Characteristics
- Section C: Enrolment
- Section D: Staff
- Section E: Classrooms
- Section F: Facilities
- Section G: Pupil/Teacher Book
- Section H: Teachers Qualification
- Section I: FLHE
- Section J: Undertaking

Click each section to open it and complete the questions.

6. Section-by-Section Guidance (What to Enter)

Section A: School Identification

- Enter/confirm key school contact details such as telephone number and email address.

Section B: School Characteristics

- Complete school profile details (year established, location, school type, shift system, shared facilities, multi-grade teaching, distances, inspections, SBMC/PTA, etc.).
- Select only one option where required and avoid guessing.

Section C: Enrolment

- Enter enrollment by class/grade and gender (male/female).
- Use 0 where applicable and ensure totals match the school register.

Section D: Staff

- Enter teaching and non-teaching staff totals as requested.
- Ensure consistency with the staff list and avoid double counting.

Section E: Classrooms

- Enter number and condition of classrooms as requested.

Section F: Facilities

- Enter WASH and infrastructure details (toilets, water, electricity, etc.).
- Report what is available and functional.

Section A: School Identification
Section B: School Characteristics
Section C: Enrolment
Section D: Staff
Section E: Classrooms
Section F: Facilities
Section G: Pupil/Teacher Book
Section H: Teachers Qualification
Section I: FLHE
Section J: Undertaking

Section G: Pupil/Teacher Book

- Enter learning materials and pupil/teacher indicators as requested.

Section H: Teachers Qualification

- Enter teacher qualification counts by category and ensure alignment with total teachers.

Section I: FLHE

- Complete FLHE-related indicators accurately based on actual practice.

Section J: Undertaking

- Complete the declaration confirming the information is correct and complete.

7. Saving, Validation, and Error Correction

7.1 Save Frequently

- Save after completing each section and before moving to another section.

7.2 Run Validation

- Click Run validation (top-right) to check for missing or inconsistent values.
- Correct issues and run validation again until cleared.

8. Submission Process

Step 1: Final Review

- Confirm all sections A–J are completed and totals are correct.
- Ensure to also enter the data for the Staff and Classroom forms

Step 2: Submit

- Submit the forms to the LGEA/LGA EMIS Officers for review.

Step 3: If Returned for Correction

- Correct the issues, run validation again, and re-submit.

9. Common Problems and How to Fix Them

- **Wrong school appears:** Stop immediately and inform LGEA/LGA EMIS Officers.
- **Cannot submit:** Run validation and complete missing required fields.
- **Totals not matching:** Recheck enrolment and staff totals and correct values.
- **Internet unstable:** Continue to capture the data and when connectivity improves, upload or synchronize locally saved data to the server.
- **System slow/forms not opening:** Clear the Browser Cache to quickly troubleshoot and refresh the system

9A. LGEA/LGA Level Workflow (Review, Validation and Approval)

This section guides LGEA/LGA EMIS Officers on how to support schools and ensure only clean, complete submissions are approved.

A) Preparation (Before School Follow-up)

- Confirm the list of schools assigned to your LGEA/LGA and their data entry status (Not Started / In Progress / Submitted / Approved / Returned).
- Confirm all school focal persons have correct login credentials and can access emis.education.gov.ng
- Prepare a simple daily call/WhatsApp follow-up plan for schools that are pending or incomplete.

B) School Support During Data Entry

- Guide schools to select the correct Data Set and Period (year) before starting.
- Remind schools to complete and submit their forms and avoid leaving mandatory fields blank.
- Provide quick clarification on common questions (e.g., enrolment totals, staff counts, facilities).

C) Review and Validation (LGEA/LGA Checkpoints)

LGEA should verify the following before approving:

- **Completeness:** all sections A–J completed and no missing mandatory fields
- **Consistency:** enrolment totals match class-by-class entries; staff totals align with qualification section
- **Outliers:** extremely high/low values (e.g., 0 teachers, very high enrolment with few classrooms)
- **Logic checks:** facilities and classrooms are realistic for the school size
- **Validation rules:** run validation and resolve all high-priority violations before approval.
- **Trend check:** compare current enrolment with previous term/year; changes above 10-15% require a comment/justification.
- **Sanity rules:** average daily attendance must not exceed enrolment; TRCN-certified teachers must not exceed total teachers.
- **WASH flags:** zero functional toilets for a large school should be verified and escalated for action.

E) Reporting to State EMIS Team

- Share daily progress summary by LGEA/LGA (number submitted, pending).
- Escalate system-related issues (login failures, missing school, form not loading) to the State EMIS Team immediately.

F) Minimum Tools Recommended for LGEA/LGA

- School tracking sheet (Excel) with level by school
- Issue log (school name, issue, action taken, resolution date)

- Daily progress update format to State EMIS Team

10. Key Do's and Don'ts

DO

- Use school registers and staff records
- Enter zeros instead of leaving blanks
- Save frequently
- Run validation before submission
- Submit only when all sections are complete

DON'T

- Do not guess values
- Do not enter data for the wrong year
- Do not share your password
- Do not submit incomplete forms

11. Analytics Apps (Quick Guide)

- **Dashboards:** monitor key indicators and progress across LGAs in one view.
- **Maps:** visualize infrastructure and access gaps geographically (where GPS data is available).
- **Pivot tables / Data Visualizer:** compare LGAs by gender, grade, and other disaggregations.
- **Reports:** generate dataset reports in the same format as the data entry form for review and printing.

12. COMMON ERRORS AND QUICK FIXES

Wrong year selected (Period)

- **Symptom:** You cannot find the correct form or data appears for a different year.
- **Fix:** Go to Data Entry → Period → select the approved year (e.g., 2025) before entering data.

Missing mandatory fields

- **Symptom:** System prevents submission or shows incomplete sections.
- **Fix:** Run validation → return to the highlighted section → complete all required fields (use 0 where applicable) → save.

Enrolment totals mismatch

- **Symptom:** Validation errors or unrealistic totals compared to the school register.
- **Fix:** Recheck class-by-class enrolment for boys and girls → confirm totals match the school register → correct and save.

Staff totals mismatch

- **Symptom:** Teacher totals do not align across Staff and Teacher Qualification sections.

- **Fix:** Confirm the total number of teachers → ensure the breakdown in qualification categories equals the total teacher count.

Validation errors blocking submission

- **Symptom:** “Cannot submit” or validation messages remain.
- **Fix:** Click Run validation → address each error one by one → save → run validation again until no blocking errors remain.

ANNEX 1: LGEA/LGA Data Validation Checklist

LGEA/LGA Name: _____

Reporting Period: _____ (e.g., Term 1 2024/2025, ASC 2025)

Reviewing Officer: _____

Section A: Completeness Check

- **School coverage:** confirm all public schools (and registered private schools where required) have submitted.
- **Form completeness:** confirm all sections are filled; do not accept blanks unless justified.
- **Geolocation:** confirm new schools have GPS coordinates (latitude/longitude) where required.

Section B: Logical and Accuracy Checks (Sanity Check)

- **Enrolment totals:** total enrolment equals boys + girls (and equals sum of classes where applicable).
- **Age vs class:** flag unrealistic age entries for the grade (where captured).
- **Staff totals:** total teachers equals male + female teachers.
- **Qualification verification:** TRCN-certified teachers must not exceed total teachers.
- **Classroom capacity:** compare enrollment with number of classrooms; investigate extreme ratios.
- **WASH ratios:** compare enrolment with functional toilets; verify zero functional toilets for large schools.

Section C: Final Check

- **Validation rules run:** run validation and resolve high-priority violations before approval.
- **Feedback loop:** return submissions to schools with clear correction notes and request re-submission.
- **Sign-off:** record the date and officer responsible once the submission is clean and ready for state notification. .

Officer Signature: _____ Date: _____
