

Enrolling a Learner

Step 1 Login

Step 2 Search for the Learner

Enrolling a Learner

Step 3

Capture and Sync Learner data

Tap the calendar icon, then navigate to select the reporting date.

Your school is preselected

- Enter data values or select from existing options.
- Tap the x icon to clear a mistake

Tap the file button to save the data

Tap to edit learner's enrollment details

To enter data in other sections, tap the plus button, then tap 'Enter Event' and capture the data

After filling in data for each section, click the file icon at the bottom right corner, select 'Complete' to complete the form

Tap the back arrow to navigate back to the form

Tap Sync to send all learner data to the server. A pop message will show at the bottom of the screen. Select 'Send' to Sync
